LinkedIn · Github · Portfolio

Passionate Software Engineer focusing on Full-Stack Web development. A creative mind with a flair for design and a love for solving challenges. Enjoys meeting new people and is dedicated to continuous learning. Strives to be part of the inspiring innovation that shapes tomorrow's technology.

EXPERIENCE

Completed a comprehensive Software Engineering Bootcamp at Alx Africa, honing skills in various technologies including Python, HTML, CSS, JavaScript, and Flask.

Simple Shell Project:
- - Led the development of a custom Unix shell, demonstrating strong command over system programming and shell scripting.
- - Achieved an awesome result by creating a user-friendly shell with essential functionalities.

RSA Factoring Challenge:
- - Undertook the RSA Factoring Challenge, showcasing advanced problem-solving abilities in the field of cryptography.
- - Accomplished another awesome result by successfully factoring challenging RSA keys.
